IDENTITY STATEMENT

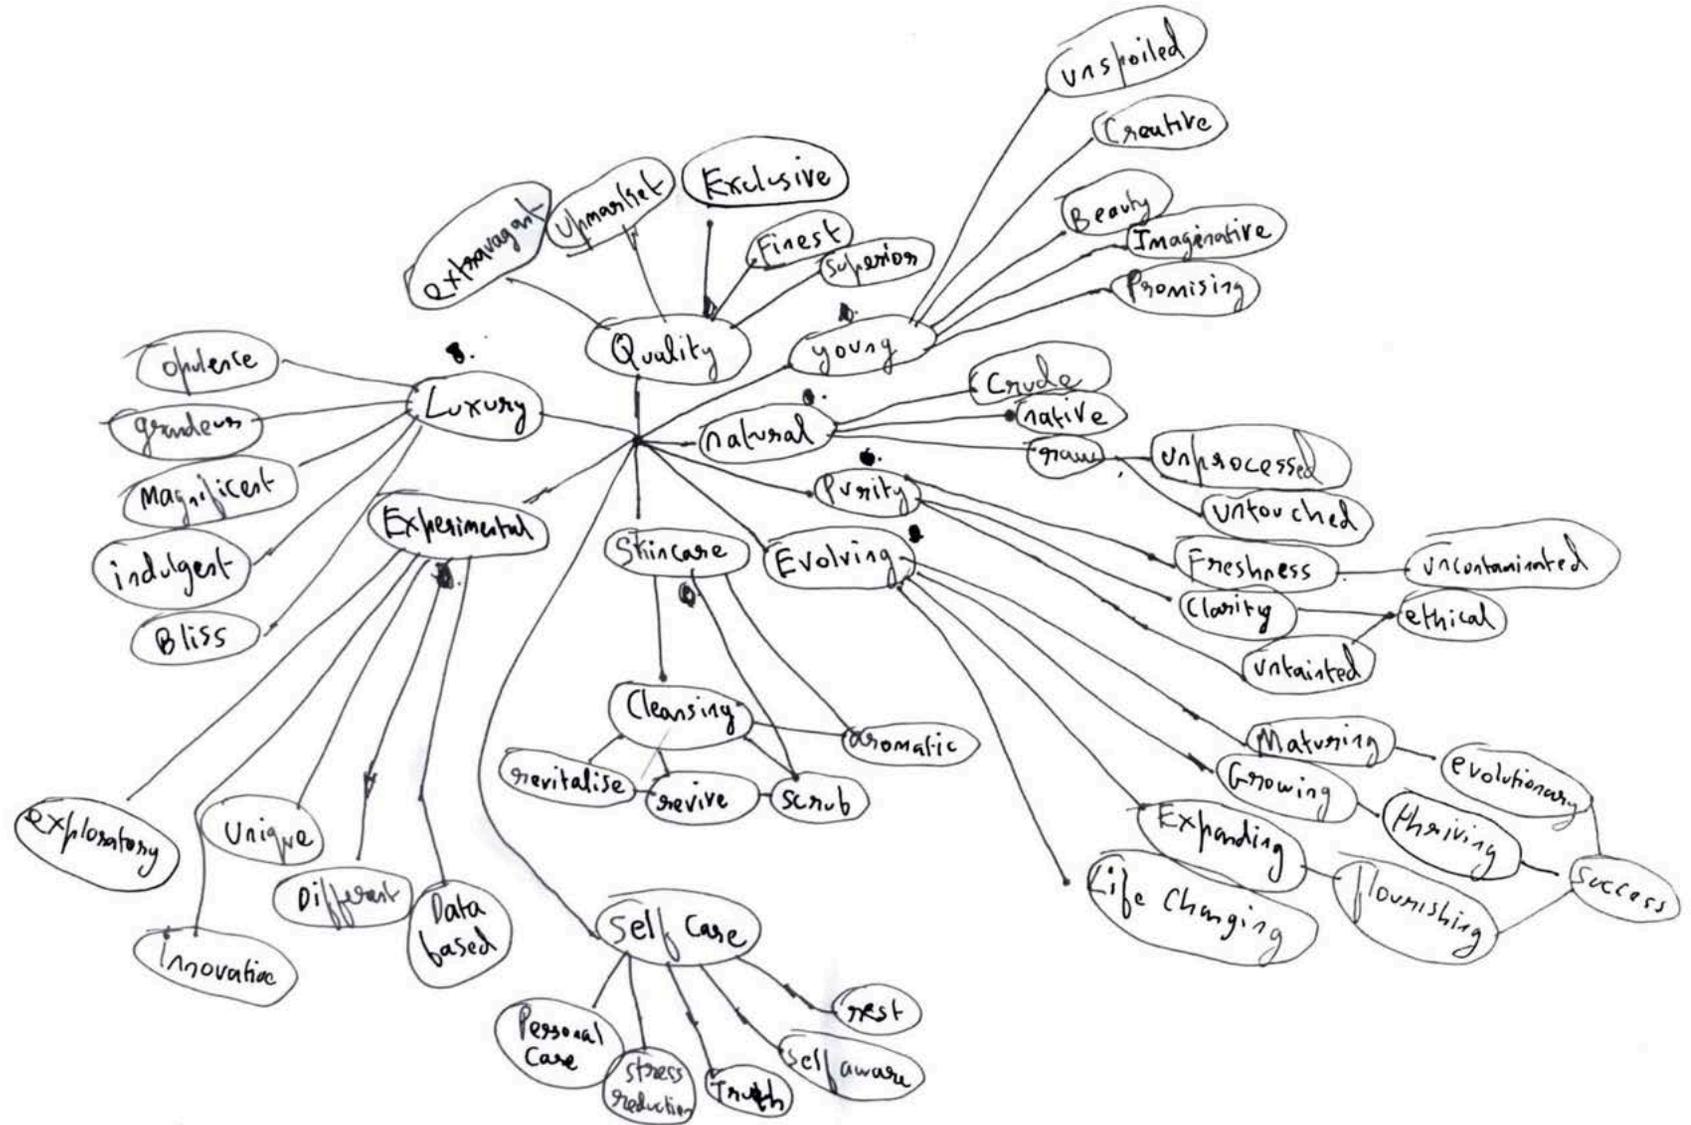

**Raw Indulgence is a luxury company
that makes natural skincare products**

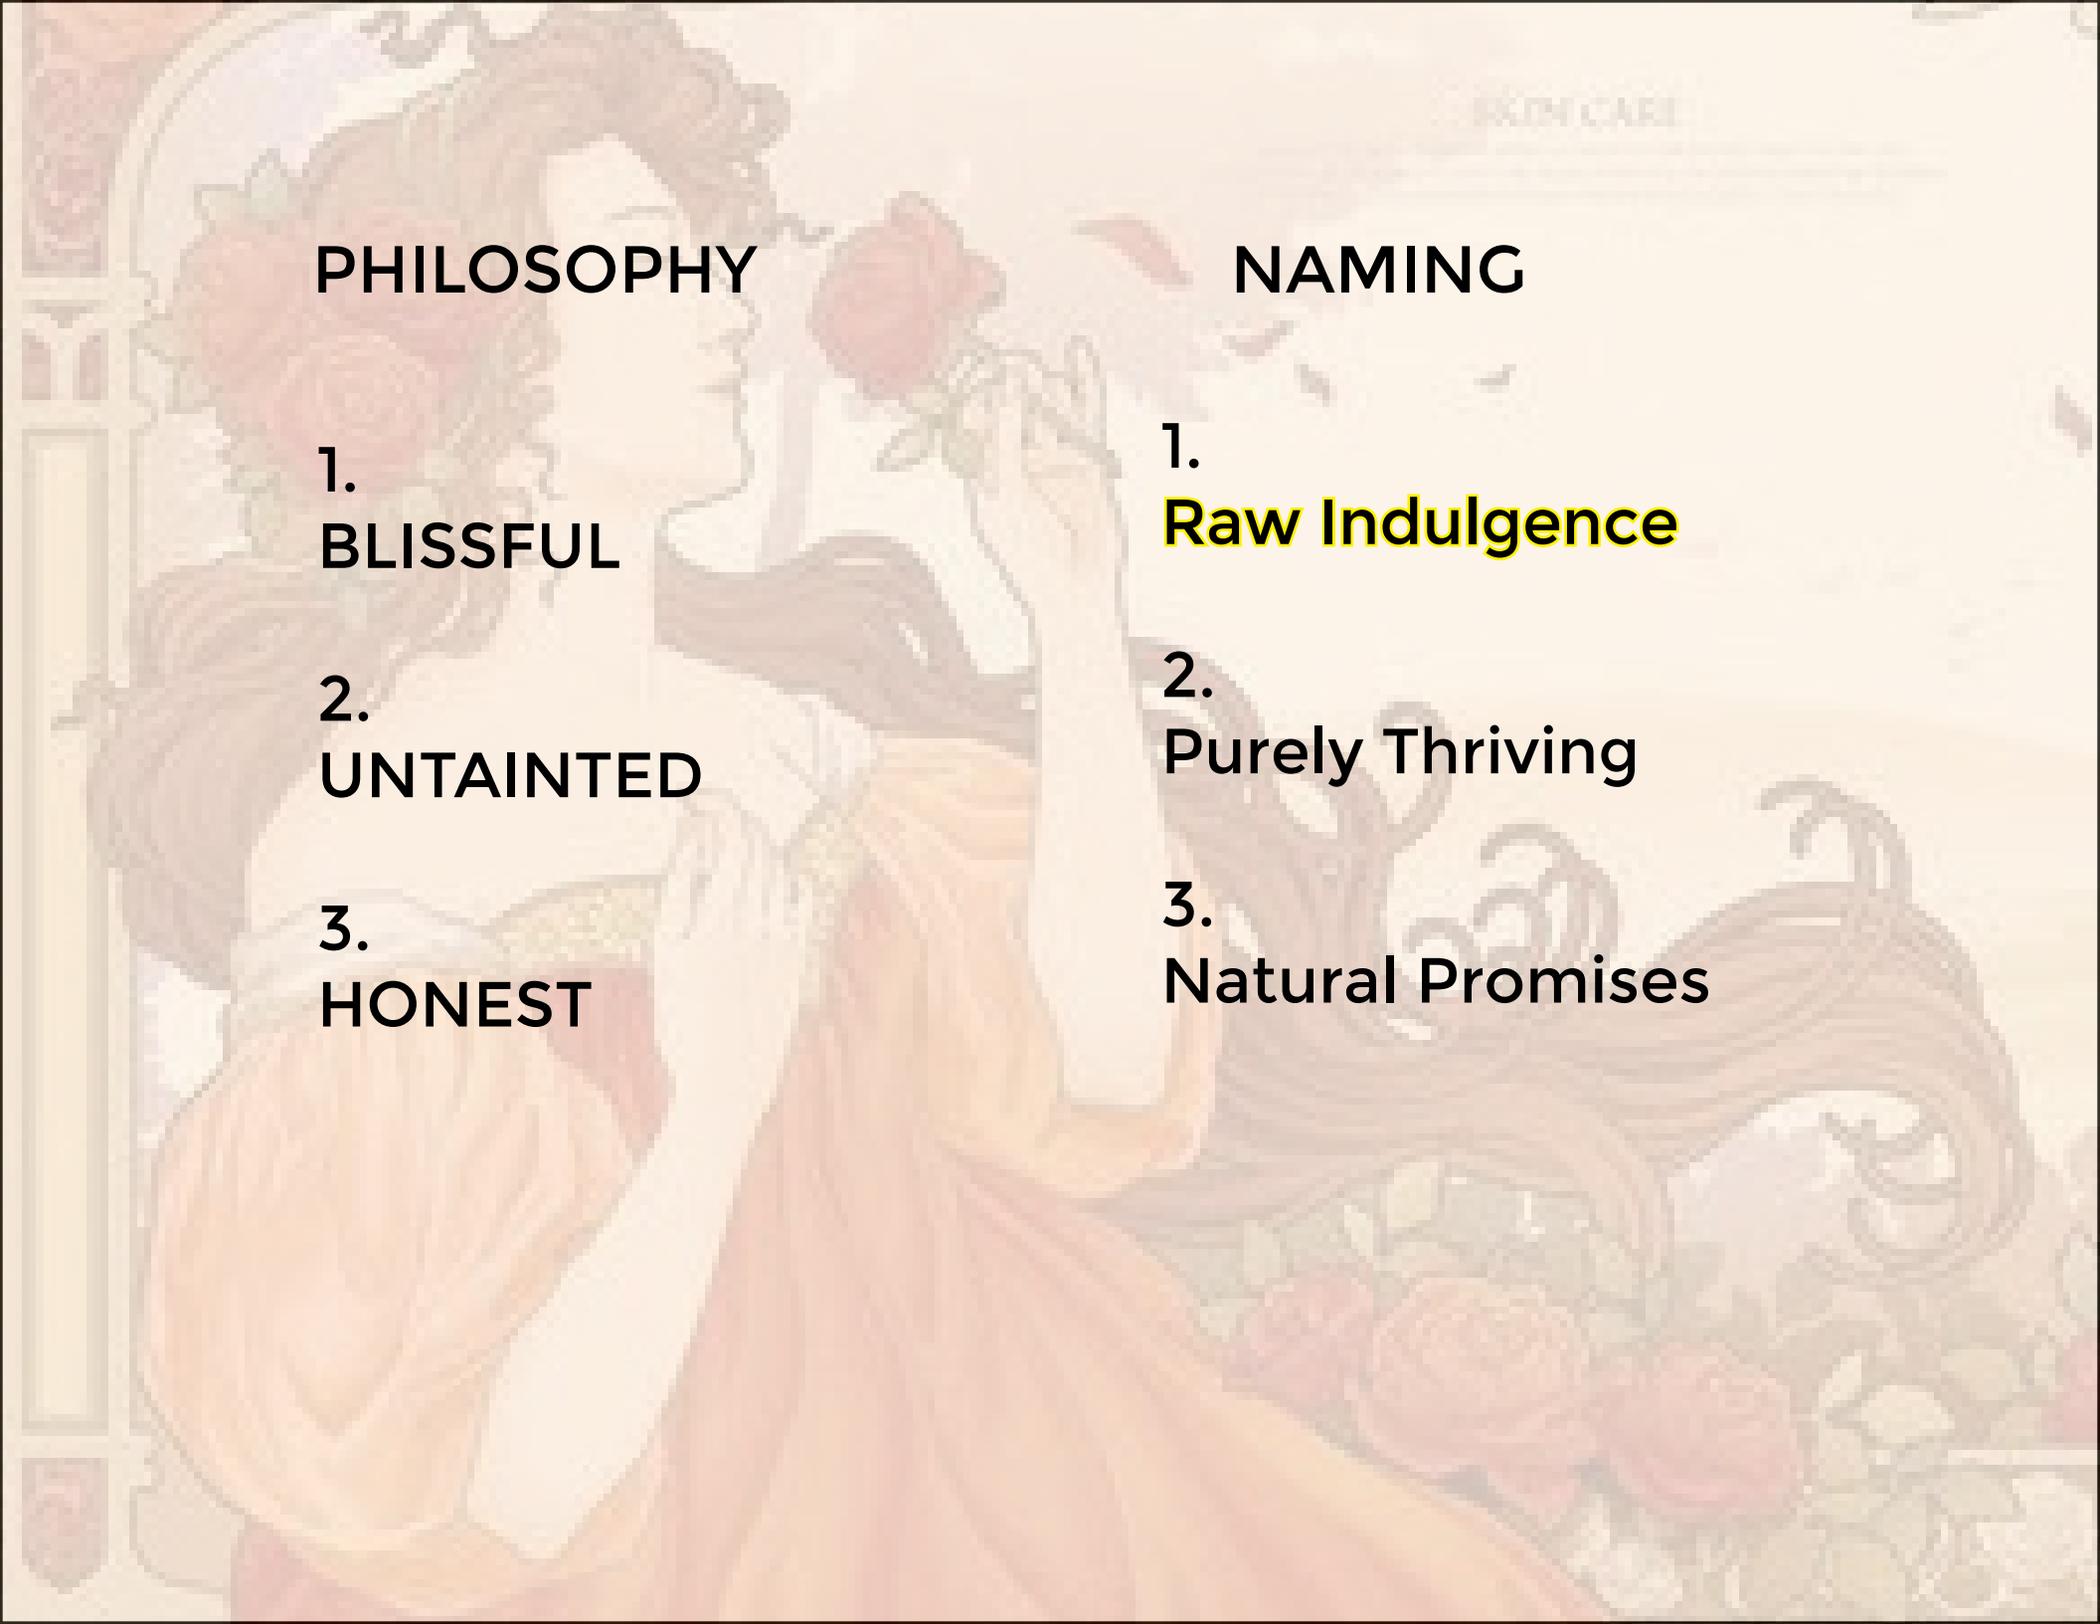

HISTORY OF RAW INDULGENCE

In 2013, Sofie Kristiansen, a young 23 year old, who was about to graduate at the University of Oslo, was tired of skincare brands that claimed they were natural, but had some artificial ingredients hidden deep within the product label. She knew something needed to be done about this, and therefore, she started experimenting with various natural ingredients. She used her graduation as the testing ground for some of her products, with concepts on how they could be used as self care tools and the results were met with enthusiasm. Eventually, this test incentivized her to start her company in 2014, with the philosophy of 'products so natural that you could almost eat them'. As the company evolved, it began using the highest quality ingredients, establishing itself as a luxury brand which, while keeping in touch with its modest roots, dedicated itself to providing nothing short of the best for its customers.

MODULAR SYSTEM (CONTD.)

RAW INDULGENCE

RAW INDULGENCE

RAW INDULGENCE

This modular system involves the use of a set of logo styles depicting nature. Each of the logos are in gold, surrounded by gold leaves and a black distinct background. Each logo and logotype combination will be used across different channels, for example, delivery vehicles will use one combination, and staff uniforms will use another.

The presence of the same colour scheme and gold leaves of each logo make the brand recognition synonymous. Some examples of logo and logotype combinations are illustrated in this section.
